- Tabletop Conference Microphones
- Wireless Microphones
- Audio Mixer with Recording
- Confidence Monitors
- Long-range clickers
- Timer Solution
- SMS Gateway
- 30x QR Codes Readers with Laptops

**Globibo’s real time Voting Solution for Military Organization**

A social and recreational club for uniformed personnel required a dependable setup for their physical AGM in Singapore. With 500 members attending in person, they needed accurate registration, reliable voting, strong audio support, and clear visual communication. Tight setup timing, safety requirements, and the need for smooth agenda flow made the event highly demanding. The client’s priority was to conduct a transparent, well-organized AGM where every participant could follow proceedings confidently.

**Client Requirements**

- Accurate onsite registration for voting and non-voting members
- A trustworthy real-time voting system for 200 onsite participants
- Clear audio and visual support for both rehearsal and live AGM, as well as award ceremony after the AGM
- Audit-friendly voting records and transparent results
- Staging, screens, QR scanners, and safety-compliant logistics

Globibo delivered an end-to-end AGM solution with real-time voting, unique logins, automated SMS notifications, and audit reports. A complete AV setup—mixers, microphones, switchers, comfort monitors, recording, and onsite crew—supported clear communication. Logistics such as staging, stands, QR scanners, and late-night setup alignment ensured the event ran smoothly from rehearsal to completion.

Globibo drives engagement at events through reliable and engaging conference equipment. The team develops generative & engaging event technology solutions to help clients excite attendees and create growth opportunities.

## ROLES / TEAM MEMBERS

- A successful event hinges on teamwork. Effective collaboration, clear communication, defined roles, and meticulous planning contribute to seamless execution. Each team member's expertise, dedication, and synchronized efforts create an unforgettable experience that meets objectives .

### 01 Technical Director

To provide senior advise on the planned preparation as well as live-execution during the event, a senior technical director was committed to the event to support the client team.

### 02 Voting Platform Manager

The Voting Manager prepared and paired voting pads with the corresponding transponder network, monitored the registration desk as well as system configurations. The voting manager also reviewed network bands and fine-tuned the settings onsite.

### 03 AV Crew

The venue had a substantial amount of inbuilt infrastructure for Video, Light, and Audio. The role of the AV Crew was to leverage the equipment as much as possible while ensuring stability for a high-stakes event.

## MANAGEMENT OF CHALLENGES

### Venue Logistics

Setup was on Thursday with Rehearsal on Friday. But Friday night, the room was booked for a dinner function. Therefore all equipment had to be dismantled and set up again on Saturday midnight to be ready for Sunday morning

### Voting Security

Considering the event is for a military organization, special requirements had to be considered for voting and data security.

### Support Team Coordination

The Client had a support team of around 30 staff that had to be integrated into the platform and AV workflows. Ensuring that all staff had the right information, knew the processes and executed properly to ensure Quorum can be properly established required a high level of supervision and communication.
